Applicant provides the following response to Examiner's
Office Action dated 03/06/98.

REMARKS

Examiner rejected claims 10-11, 18-20, 45-46, 48, and 53-62
over various claims of Applicant's Patent No. 5,498,938 ('938)
as representing direct double patenting or, in case of claims
46, 48, 56-58 and 61-62, as representing obviousness-type double
patenting.

Applicant traverses these rejections for the following
reasons.

(a) Each of claims 10-11 and 18-20 includes:

"a power supply ... having ... plural pairs of power
output terminals; an approximately sinusoidal voltage being
provided between each pair of power output terminals". (Emphasis
added)
